· I served as a connector between customers and the service team.

EDUCATION

07/2022 - Present

B-com
SGVU - University

Diploma in Automobile Engineering
MEI Engineering College

SKILLS

HTML	JavaScript	CSS	React	Node.js	MongoDB	Express.js	Restful APIS

Moon Modeler	FIGMA	GITHUB	Tailwind CSS	Bootstrap	Postman

PROJECTS

TRAVEL MATE

📅 2024
🔗 https://github.com/shijokkd/TRAVEL-MATE

An intuitive and responsive travel application designed to streamline the booking experience for both users and travel agents. **Users** can seamlessly browse and book curated travel packages and bus tickets through a user-friendly interface. **Travel agents** are empowered to manage their inventory by adding new travel packages and bus options, ensuring a comprehensive selection for users.

- Developed a user-friendly and responsive travel app using React(front-end) and Node.js (back-end).
- Implemented user and agent authentication and authorization mechanisms for secure access control
- Facilitated seamless booking of travel packages and buses, empowering users to plan their dreamt vacations
- Enabled travel agents to create and manage attractive packages which expands the app's travel offerings.

Movie app

📅 2024
🔗 https://github.com/shijokkd/Movie-app

A user-friendly and responsive movie app built with React.js and Tailwind CSS. Allowing users to explore a vast collection of movies.

- User authentication and personalized watch lists is there for a tailored movie experience
- Redux is used for state management, storing user sign-up details and authenticated user data
- Context API is utilized for adding, updating, and deleting movies, as well as adding ratings.

D-MART

📅 2024
🔗 https://github.com/shijokkd/e-commerce-Back-end

Developed an E-commerce web application using Node Js, MongoDB, Express and EJS view engine

- User authentication and authorization
- Product catalog with search, filtering, and sorting capabilities.
- Secure payment integration with Razor Pay
- Admin panel for product management, order fulfillment, and user administration.
